Skill Based Career Oriented Program on

WILDLIFE TOURISM

Gondwana University Granted Certificate Course

Due to Covid-19 pandemic, course is scheduled in Online Mode

- **Registration Dates:** 10th July to 13th July, 2021
- **Course Duration:** 14 July to 23 July 2021 (2 hours theory + 1 hour Practical)
- **Platform:** GOOGLE MEET (TIME:)
- **Eligibility:** UG, PG and 12th Pass can apply
- **Seats:** 50 Limited Seats (First Come First Serve Basis)
- **Registration link:** <https://forms.gle/uXxz6JhDE21v3VwF8>

The objective of the Wildlife tourism:

- To analyze the current wildlife tourism practices.
- To identify the weaknesses, strength and opportunities in wildlife and ecotourism practices.
- To specify Sustainable tourism strategies.
- To aware the current situation of wildlife tourism in Chandrapur district.
- To know the job opportunities in wildlife tourism in district.
- To help develop Tourism in Chandrapur District, particularly around the National Parks, sanctuaries and reserve forests in District.
- To organize scientific research, study circle, workshop, symposium, seminar, field visit and various types of awareness programme to protect, preserve and promote development of natural resources.

Skill development after successful completion of this course:

- Participants will have the proper knowledge of what wildlife tourism exactly means.
- Participants will have the knowledge of wildlife Parks and sanctuaries in India, state and district.
- Participants will have all the required knowledge to do career in wildlife tourism.

The outcomes of Wild life tourism course will be:

- This course will help participants to get various jobs in Tourism Industry.
- Course will be also helpful for participant in case of research and studies in wildlife.
- Course will be also helpful in participating in management activities, monitoring or research.

Significance of wildlife tourism

- Wildlife tour ultimately helps the respective authorities for further conservation initiatives.
- The fare collected via wildlife tourism is used for the maintenance of national parks and sanctuaries.
- These tours bring people closer to the nature and make them understand the ecological importance of wildlife.
- As tourism educates people about wildlife and its importance and thus is a part of conservation and on the other hand conservation allows wildlife enthusiasts to explore their world of dreams.

Skill based Career Oriented Course on Wildlife Tourism (14th July to 23rd July 2021)

This screenshot shows a Google Meet interface during a presentation. At the top, a notification reads "You have extensions installed that may affect the quality of your call" with links for "Learn more" and "Dismiss". Below this, a status bar indicates "ankita sharma is presenting". The main content area displays a PowerPoint slide titled "ECOTOURISM" with the subtitle "Conservation friendly wildlife tourism". The slide features a tiger in a forest and credits "By, Miss. Ankita Sharma, Research Scholar, PGTD Zoology, RIM Nagpur University, Nagpur." To the right of the slide is a grid of participant video thumbnails, including "ankita sharma", "Anand Niketan Colle...", "Kawdu Deshmukh", "Rajani Yerawar", "Maheshwari Deshm...", "Nikesh Bharane", "Hemant Parchake", "28 others", and "You". The bottom of the screen shows a Windows taskbar with the search bar, system tray, and date/time (13:16, 15-07-2021).

This screenshot is another view of the same Google Meet session. It shows the same "ECOTOURISM" presentation slide and participant grid as the first screenshot. The notification at the top is identical. The status bar still shows "ankita sharma is presenting". The participant grid includes "ankita sharma", "Kawdu Deshmukh", "Rajani Yerawar", "Maheshwari Desh...", "Nikesh Bharane", "Hemant Parchake", "28 others", and "You". The Windows taskbar at the bottom shows the search bar, system tray, and date/time (1:16 PM, 15-07-2021).

ankita sharma is presenting

ECOTOURISM

- Ecotourism is now defined as "responsible travel to natural areas that conserves the environment, sustains the well-being of the local people, and involves interpretation and education" (TIES, 2015).
- Education is meant to be inclusive of both staff and guests.

Press **Esc** to exit full screen

PRINCIPLES OF ECOTOURISM

- Ecotourism is about uniting conservation, communities, and sustainable travel.
- This means that those who implement, participate in and market ecotourism activities should adopt the following ecotourism principles:
 1. Minimize physical, social, behavioral, and psychological impacts.
 2. Build environmental and cultural awareness and respect.
 3. Provide positive experiences for both visitors and hosts.

ankita sharma is presenting

BIODIVERSITY CONSERVATION

- **Biodiversity conservation** refers to the **protection, preservation, and management of ecosystems** and natural habitats and ensuring that they are healthy and functional.
- To protect and preserve species diversity.
- To ensure sustainable management of the species and ecosystems.

SUSTAINABLE DEVELOPMENT

- Sustainable development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs.

ECOTOURISM IN WILDLIFE

- Wildlife tourism can be an eco and animal friendly tourism, usually showing animals in their natural habitat.
- Wildlife tourism, in its simplest sense, is watching wild animals in their natural habitat such as National Parks, National Sanctuaries and Bio Reserves.

HOW TOURISM BENEFITS NATURE AND WILDLIFE

- Over the last decade, nature-based tourism has become increasingly popular. In total, wildlife tourism now supports nearly 22 million jobs around the world and contributes more than \$120 billion to global GDP.
- This growing interest in wildlife tourism, and the economic benefits that come along with it, can change community attitudes towards conservation.
- Without tourism, local communities may merely view wild animals as a danger to their farms and families, and only value natural resources for consumption.

1:43 PM | bsp-ftmo-bsb

ankita sharma is presenting

ECOTOURISM - PowerPoint (Product Activation Failed)

- **Ecotourism** is motivating communities to conserve **critically endangered bird species**, such as the **giant ibis** and **white-shouldered ibis**.
- Thousands of tourists come from across the world to see these rare and iconic species.

ECOTOURISM - PowerPoint (Product Activation Failed)

STILL PROGRESS TO BE MADE

- But of course, all of the benefits above will only occur when tourism happens in a well-managed and sustainable way.
- As we have gained a better understanding of how humans impact the natural world, there have definitely been great strides towards making tourism more eco-friendly.
- However, our work is far from done. There's still a lot of room for improvement by everyone involved in tourism – businesses, governments, communities and tourists – to maximize tourism's benefits for the planet.

INTRODUCTION cont....

- Tourism in India has grown in leaps and bounds over the years, with each region of India contributing something to its splendour and exuberance as per the Travel and Tourism competitiveness Report 2009 by the World Economic Forum.
- India is ranked 11th in the Asia Pacific region and 62nd overall, moving up three places on the list of the world's attractive destinations.
- The India travel and tourism industry ranked 5th in the long-term [10year] growth and is expected to be the second largest employer in the world by 2019.

Nitin Kalambe is presenting

sustainable wildlife tourism

- If ecotourism grows rapidly beyond limit, it will result in several environmental, social and cultural problems.
- Increased number of tourists beyond the carrying capacity may deteriorate the areas due to increase in accommodation units, shopping centers and other recreation facilities in Wildlife areas.
- It has every threat to wipe out the plant and wildlife species & further it may lead to replace the natural ecosystem by artificial landscape.
- The present study would enable to recognize and implement **sustainable wildlife tourism practices**.
- Sustainable tourism positively affects by way of financial contributions, non-financial contributions, socio-economic incentives and education. Thereby accomplish the purpose of the Reserve.

Positive Contribution to Conservation and Economy

- Ecotourism is the most important aspect as it is concerned with **environment protection**.
- Well-managed nature-based tourism **generates revenue for conservation** of natural habitats and wildlife and the economy as a whole.
- Wildlife tourism is growing rapidly in India. It is **attracting lots of domestic and foreign tourists**.
- wildlife tourism is considered as one of the main source to generate the income
- Apart from the financial benefit , this would **reduce incidents of human-animal conflicts**.
