Re-Accredited With 'B++' Grade By NAAC

Recipient of Best College award by Gondwana University Gadchiroli.

ACTIVITY REPORT

Academic Year: 2021- 2022

Department: Botany

Name of the Activity: e-Workshop on Techniques of Collection, Storage and handlings of Jungle Tree Seeds.

Duration of the Activity: One Day

Date of the Activity: 24/02/2022

Venue: Online Mode (Google Meet) (<http://meet.google.com/uoj-octh-mtp>)

Resource Person: Ms. Prachi Mahurkar, Ecologists, Punarnava Ecological Services and Eco-Designing Solutions

No. of Participants: 41

Coordinators/Organizing Committee members:

Organizer: Dr. M. C. Kale, Principal

Convener: Dr. P. J. Wagh

Coordinator: Mr. C. A. Warade and Ms. V. D. Dadmal

Objectives:

1. To explore knowledge about seed diversity among native tree species.
2. To learn scientific methods for harvesting, collection, storage and handlings of diverse germplasms of native jungle trees.

Outcomes:

1. Total 41 participants including PG students, Research Scholars and faculty members attended workshop.
2. Participants became aware about Scientific methods for germplasm harvesting, collection, storage and handlings.
3. A step towards biodiversity conservation has taken by initiating Seed Collection drive.

VIDYA DADMAL
Feb 23

Greetings from,
Maharogi Sewa Samiti, Warora
Anand Niketan College, Anandwan, Warora.

Is organising a
Lecture on techniques of seed collection
For PG Students

Date: 23/02/2022
Time: 7.00 PM

Link for Meeting:
<http://meet.google.com/uoj-octh-mtp>

Meeting source: Google meet.

SEED COLLECTION OF JUNGLE TREES

A number of methods for the collection of fruits and seeds have been developed. The methods range from simple collection from ground after natural seed fall to advanced method using sophisticated and expensive equipment such as relevant platforms, mechanical shaker or even balloons or helicopters. The most efficient method is the non destructive method, in which the appropriate amount of seed can be collected with smallest possible cost without jeopardizing seed quality, safety of staff and possible future seed production.
